Resource: I'm Determined

About

The I'm Determined project, a state-directed project funded by the [Virginia Department of Education](#), focuses on providing direct instruction, models, and opportunities to practice skills associated with self-determined behavior. This project facilitates youth, especially those with disabilities to undertake a measure of control in their lives, helping to set and steer the course rather than remaining the silent passenger.

Much of our work comes from research around three psychological needs: Competence, Autonomy, and Relatedness (CAR). We have found that when a person can experience high levels of CAR, it opens up greater opportunities to experience high levels of self-determination and well-being. Below is a video describing these three concepts.

PACER Helps Parents and Professionals

PACER Helps in Many Ways

Through more than 30 projects, PACER provides individual assistance, workshops, publications, and other resources to help families make decisions about education and other services for their child or young adult with disabilities.

PACER's National Bullying Prevention Center® provides resources designed to benefit all students, including those with disabilities.

PACER is for:

- Families and their children or young adults with disabilities or special health care needs from birth through adulthood.
- Educators and other professionals who work with students with or without disabilities.
- Parents of all children and schools working together to encourage family involvement in education .

PACER Resources

PACER Center offers additional services and specialized programs for parents of children with disabilities or mental health needs

Young Adults and Customized Employment: What You Need to Know

This training will provide an overview of customized employment and the discovery process. Customized employment is an option for individuals who are significantly impacted by their disability and desire competitive, integrated employment. The presentation will cover the discovery process and how it has led to successful employment outcomes for many Minnesotans.

Certificates of Attendance

Only those who participate in the workshop are eligible to receive a certificate of attendance. No certificate will be provided for viewing the archived webpage.

The Rights and Responsibilities of Students and The Americans with Disabilities Act (ADA)

The ADA protects persons with disabilities from discrimination and provides equal access and opportunity for participation in education and employment. This training provides information on ADA rights and responsibilities of students who plan to work and/or attend a post-secondary institution following high school graduation.
